

DISCOVER THE HIDDEN POTENTIAL

The background is a dark, blue-tinted photograph of a modern industrial facility. In the foreground, a curved conveyor belt carries several large, clear plastic bottles filled with a bright yellow liquid, likely juice. The bottles have green caps. In the background, there are complex metal structures, pipes, and overhead lighting fixtures, creating a sense of a large-scale manufacturing environment.

What are the expectations to Industry 4.0
and digitalization within industrial
manufacturing?

DIGITALIZATION

within industrial companies is by
2020 expected to **more than double**

DATA AND ANALYTICS

are expected to become increasingly important to
drive decision-making

CHALLENGES

most manufacturing companies face

Machine stops

Downtime

Product quality

Performance

Maintenance

Visibility in
manufacturing

We wish to enable companies to accelerate
their journey towards Industry 4.0 by
collecting, analyzing and **visualizing** production
data

Or as we call it...

DIAP

DISCOVER THE HIDDEN POTENTIAL

Dialogue tool providing

- ✓ Visibility
- ✓ Quality reports for plant management
- ✓ Data available anywhere, anytime

Stop cause registration

- ✓ Planned & unplanned stops
- ✓ Alarm notifications
- ✓ E-mail alerts
- ✓ OEE reports

Live robot data

- ✓ OEE
- ✓ Performance
- ✓ Uptime/downtime

Live sensor data

- ✓ Counting of products
- ✓ Tracking of objects

Live AGV data

- ✓ Uptime/downtime
- ✓ Weight monitoring
- ✓ Alarm notifications
- ✓ E-mail alerts

Live PLC data

- ✓ Cycle time monitoring
- ✓ OEE
- ✓ Uptime/downtime
- ✓ Historical reporting

Live sensor data

- ✓ Real-time temperature
- ✓ Overheat detection
- ✓ Vibration monitoring
- ✓ Speed monitoring

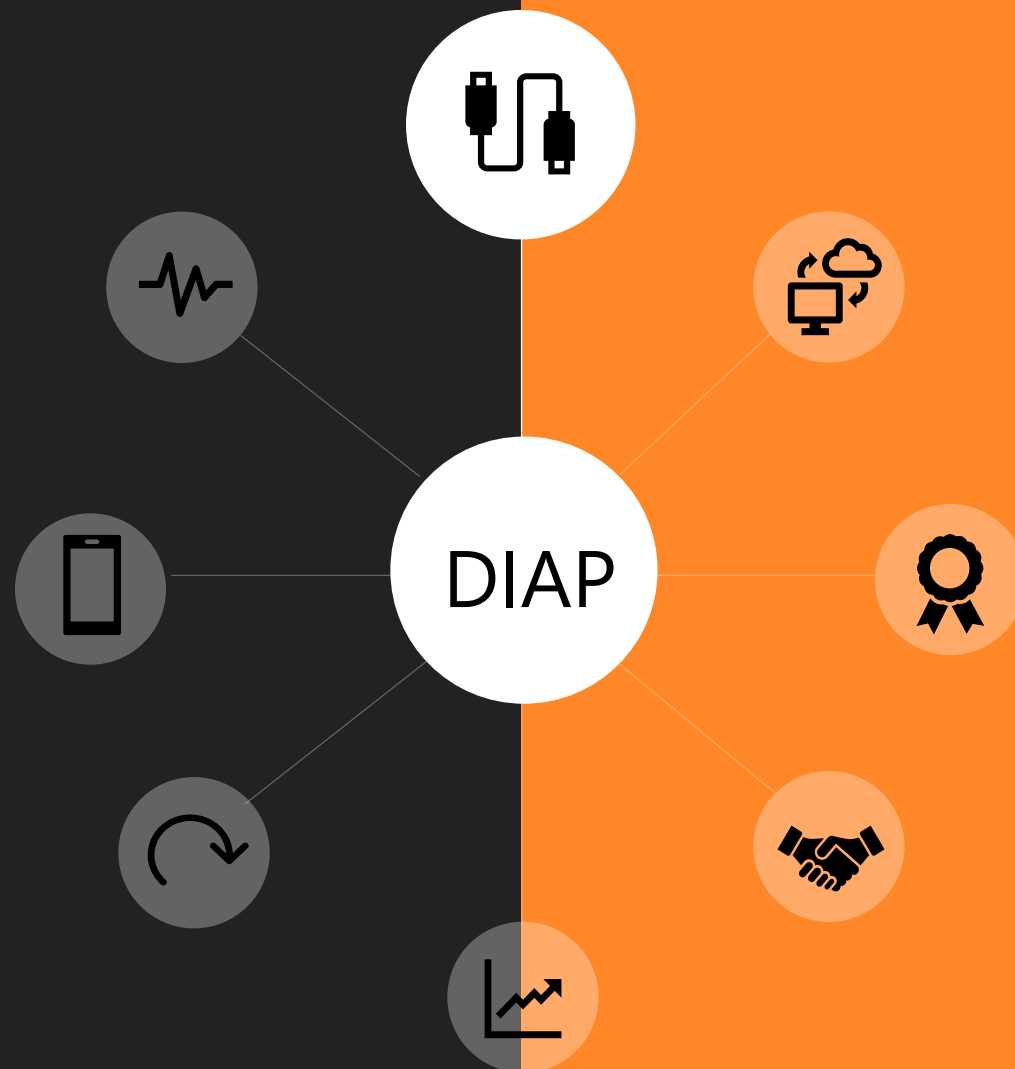

Why should you grow
your business with
DIAP?

8 CORE REASONS

UNIQUE COMPATIBILITY

In contrast to many similar products, DIAP provides manufacturing companies with an integrated, high-quality hardware and software solution which is fully compatible with any **PLC, sensor and industrial robot** from all the major brands.

CHALLENGES

Machine stops

Product quality

Downtime

Performance

Maintenance

Visibility in
manufacturing

Visibility in
Manufacturing

DIAP

OUTPUT

30 % less stops

Improved product quality

Output increased by 10 %

Better bottom line

Reduced costs

Live machine data

SAFETY FIRST

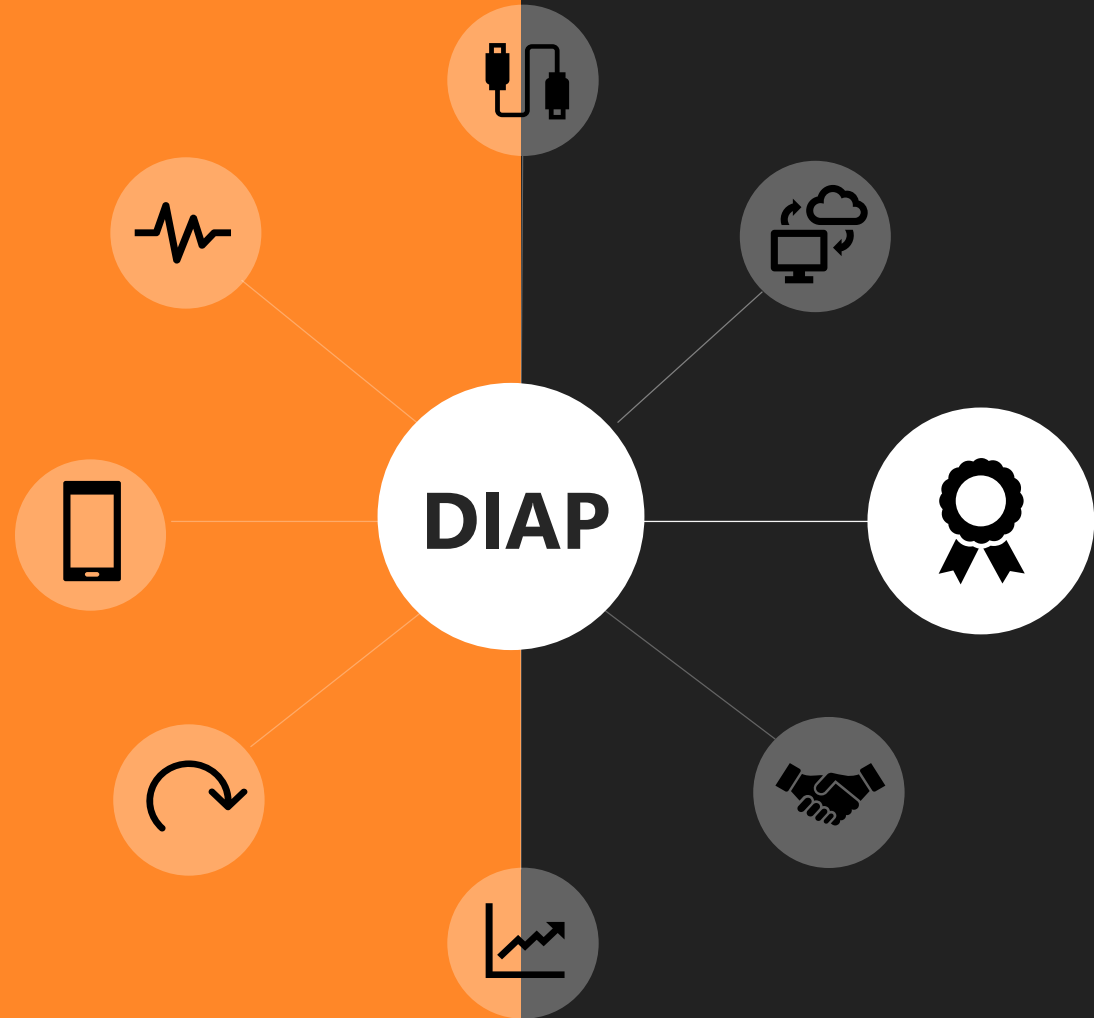

Safety is a top priority, and therefore DIAP is equipped with multilevel information security to ensure **state-of-the-art protection**. The data belongs to our customers, and it will stay theirs.

PREFERRED CHOICE

The product is thoroughly tested, again and again, and this high reliability was one of the reasons why companies like **Danfoss**, **Siemens** and **Novozymes** has chosen DIAP.

EXCEPTIONAL SERVICE

When a company chooses DIAP, it gets more than just a product: If you have any questions or experience any problems, we react immediately. Furthermore, we are very focused on our customers' feedback, always open for improving things in order to **meet your demands**.

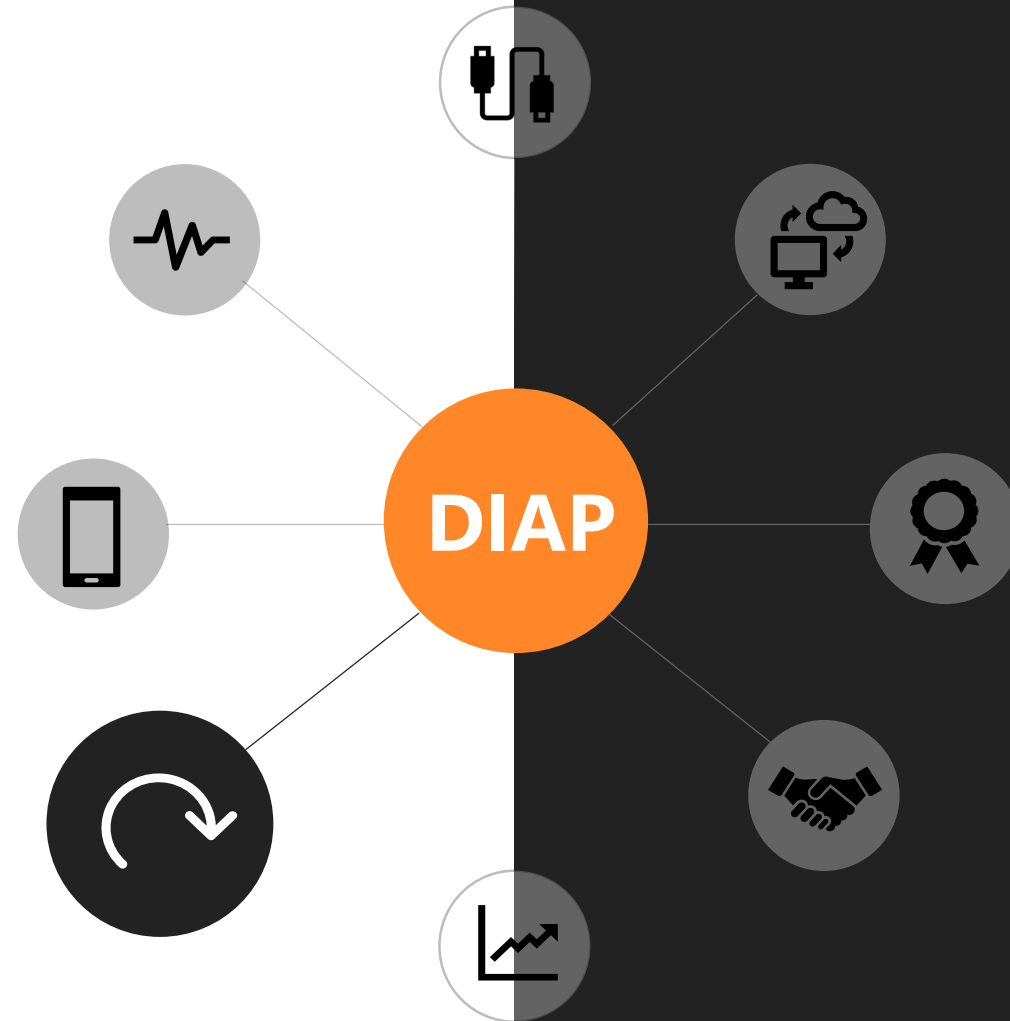

SHOW IT, DON'T TELL IT

We know that DIAP will speak for itself, which is why we always offer customers to try it before they buy it. In no time you will see how it can optimize your production, giving you **fast return on investment**.

ENDLESS POSSIBILITIES

DIAP offers a **future-proof solution** for the visionary customers who want to accelerate their journey towards Industry 4.0: Step by step we allow you to add new features and functionalities in order to make your production setup even smarter and more competitive.

EASE-OF-USE

A **plug 'n' play solution** makes it exceptionally easy to install, and thanks to the user-friendly interface it is almost as easy to use as a smartphone.

ALWAYS UP TO DATE

DIAP is one of the best tools when it comes to collecting and analysing your valuable production data. In order to ensure that your product keeps this leading position we are **constantly developing new features** and updates based on your feedback and needs – automatically delivered to you.

Anders Thomsen

Plant manager, GPV Electronics

The background image is a dark, semi-transparent overlay of a person's hands typing on a laptop keyboard. In the foreground, there is a white electronic circuit board with various components, connected to several colored wires (red, yellow, black) and a black battery pack labeled 'FORCES' with '1' and '2' markings.

How does it all work?
Let's take a look at the
DIAP features and applications

* Also compatible
with other
communications
standards such as:

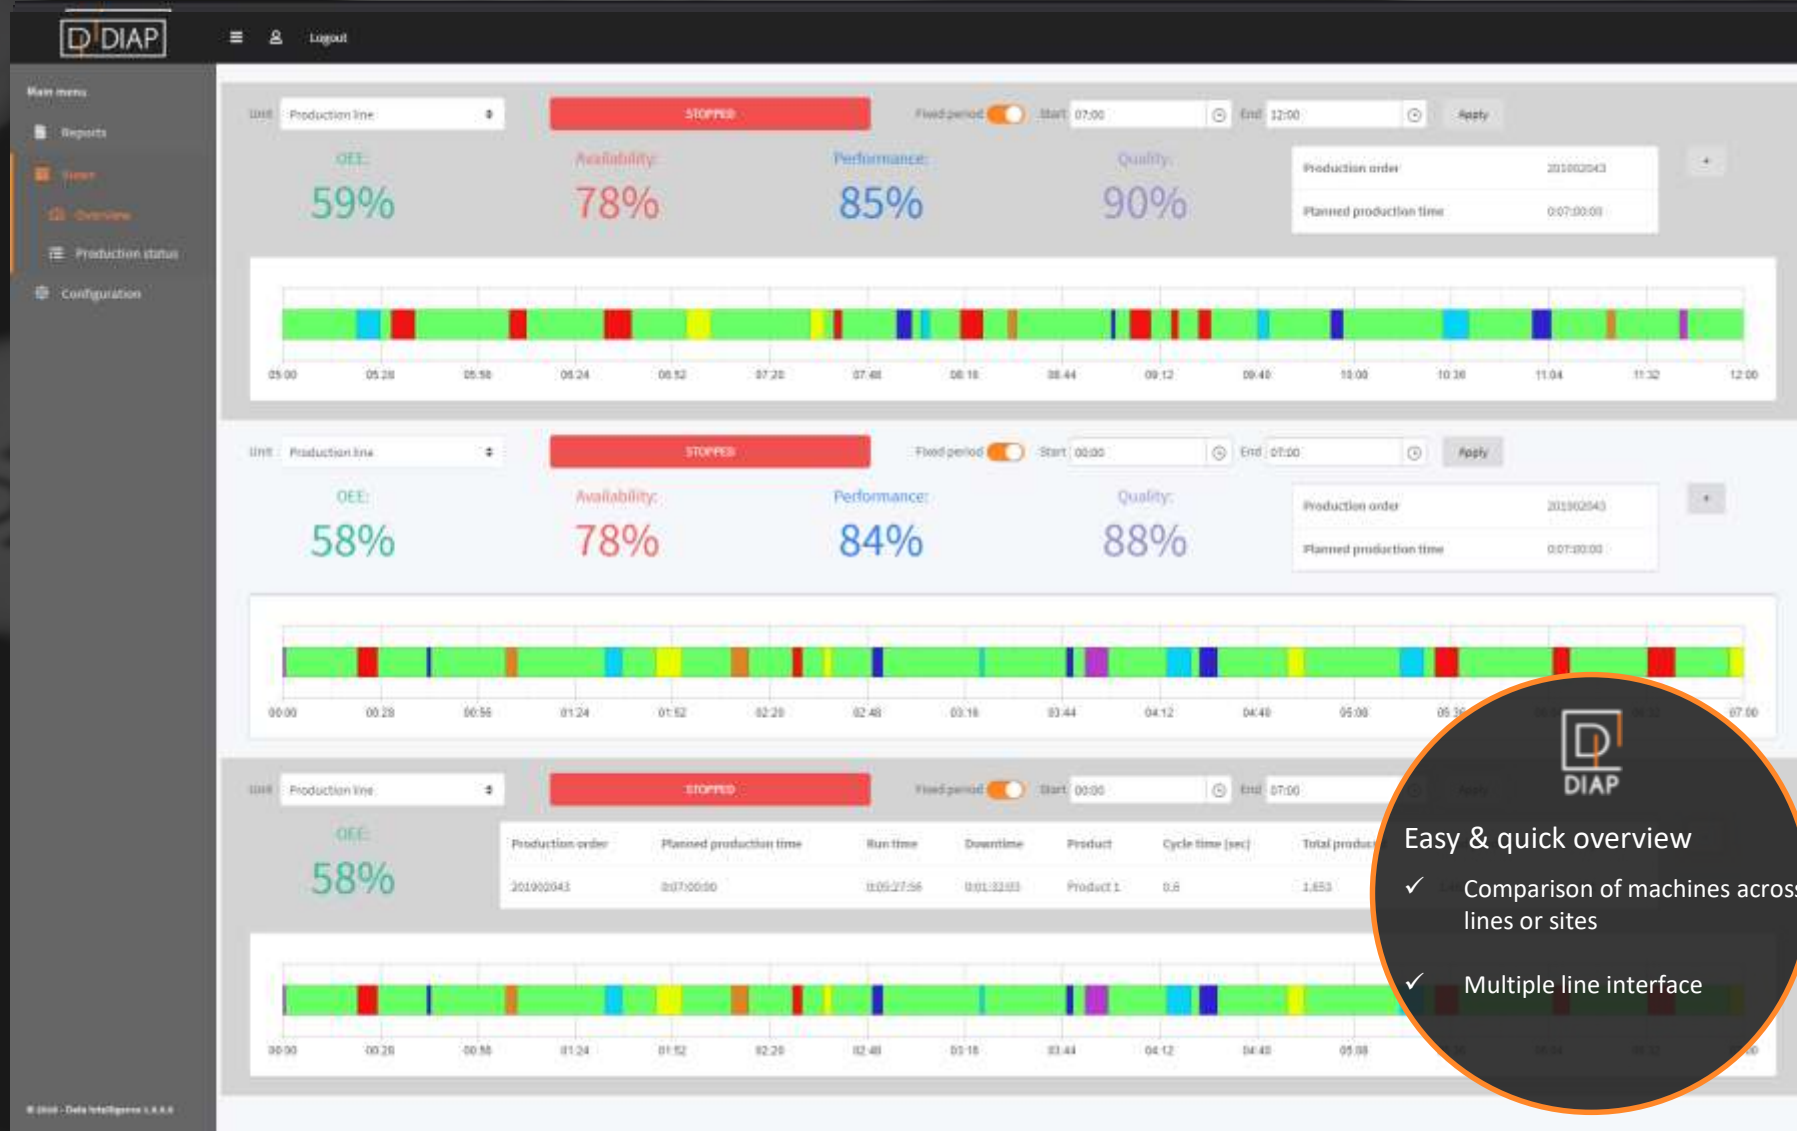

- Modbus
- Profinet
- OPC-UA
- CAN-bus

REAL-TIME DATA

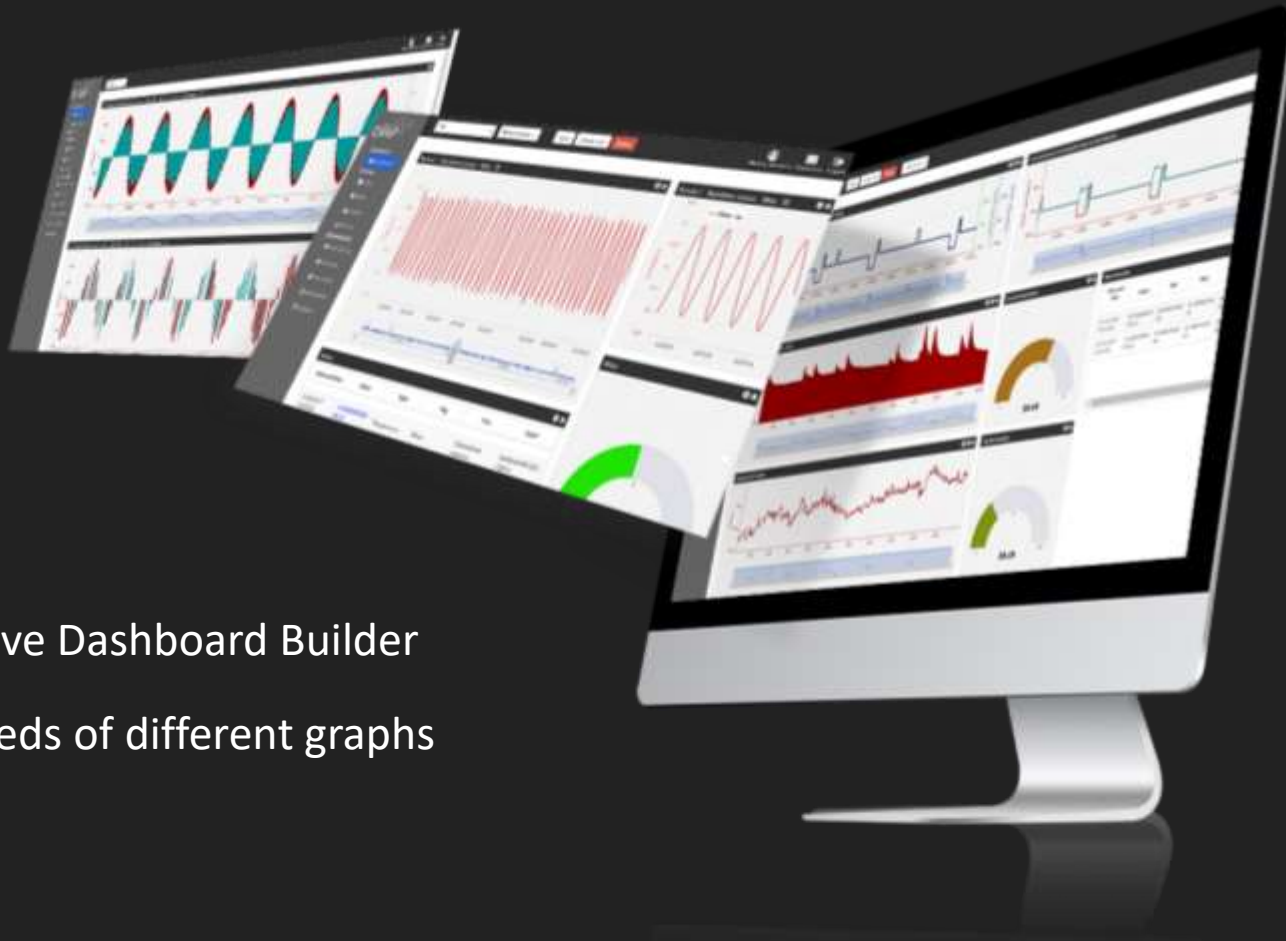

PREDICTIVE MAINTENANCE

USER-SPECIFIC INTERFACES

- ✓ Intuitive Dashboard Builder
- ✓ Hundreds of different graphs

INDIVIDUALIZED DASHBOARD

- ▶ **Plant Management**
Production rate • Quality • OEE • Energy Usage • Incident Rate
- ▶ **Production Manager**
Historical Reporting • Real-time Status • OEE • Process Capacity
- ▶ **Operator**
Planned and Unplanned Stops • Uptime and Downtime • Alarm Notifications
